

DINESH KUMAR MITTAPALLI

Site Reliability Engineer | AWS DevOps | Linux

Hyderabad, India | +91-8686622884 | dineshkumar.49m@gmail.com | linkedin.com/in/dinesh-kumar-mittapalli

PROFESSIONAL SUMMARY

Site Reliability Engineer with 5+ years of hands-on experience administering Linux production environments, automating CI/CD, and operating AWS infrastructure in healthcare and financial services. Hands-on with RHEL, CentOS, Ubuntu, and Amazon Linux, Jenkins, Docker, Kubernetes, Terraform, and Ansible. Sustained 99.99% uptime, reduced MTTR by 40%, and cut deployment effort by 50%.

CORE SKILLS

Linux:RHEL 7/8/9, CentOS, Ubuntu, Amazon Linux 2, patching, kernel tuning, systemd, cron, LVM, SSH hardening
AWS:EC2, EKS, S3, EBS, VPC, IAM, ELB, Auto Scaling, CloudWatch, CloudTrail, Lambda, Glue, Systems Manager
Containers:Docker, Kubernetes, Helm, RBAC, microservices
Automation:Terraform, Ansible, Bash/Shell scripting, Python (Boto3)
CI/CD:Jenkins, GitHub Actions, GitLab CI, Argo CD, Maven, SonarQube, blue-green and canary deployments
SRE and Monitoring:Prometheus, Grafana, CloudWatch, incident management, on-call, RCA, SLI/SLO, high availability
Databases and Tools:MySQL, PostgreSQL, Git, GitHub, GitLab, Bitbucket, Jira

HEALTHCARE DOMAIN EXPERIENCE

- Worked in the healthcare domain covering hospitals, diagnostics, and life sciences, where patient portals, hospital web applications, and integration services run 24x7 and demand strict uptime and encrypted handling of patient data.
- Administered secure AWS infrastructure (VPC, KMS, encrypted EBS/S3) on RHEL, Amazon Linux, and Ubuntu with patching and SSH hardening, sustaining 99.99% uptime for critical patient-facing applications.
- Monitored critical healthcare applications and integration services with CloudWatch and Prometheus, performing on-call incident response and RCA that reduced MTTR by 40% and met strict downtime SLAs for hospital systems.

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer | Tech Neon Solutions Private Ltd. | May 2021 - Present

DevOps Engineer | July 2023 - Present

Project: Pharmacy and Life Sciences | Client: Merck and Co | Hyderabad, India

- Administered 150+ RHEL, Amazon Linux, and Ubuntu EC2 servers: patching, kernel upgrades, LVM, file-system and sudo management, SSH hardening, sustaining 99.99% uptime.
- Troubleshoot Linux performance with top, vmstat, iostat, sar, and journalctl, reducing MTTR by 40%.
- Hardened servers with SELinux, firewalld, and key-based SSH; cleared audits with zero critical findings.
- Provisioned AWS infrastructure (EC2, S3, ELB, Auto Scaling, IAM) with Terraform and Ansible, cutting build time to under an hour.
- Built Jenkins pipelines and 30+ Bash automations on cron and systemd timers for log rotation, health checks, and backups.
- Deployed Kubernetes workloads on Linux nodes with Helm and RBAC, lowering deployment effort by 50%.
- Supported 24x7 production operations, on-call, and RCA with CloudWatch and Prometheus.

Software Engineer Trainee | May 2021 - June 2023

Project: WSPR_DataTransfer | Client: Liberty Mutual Insurance | Hyderabad, India

- Supported RHEL and Ubuntu servers: systemd services, log analysis, disk monitoring, and scheduled patching.
- Automated Jenkins and Maven deployment pipelines, reducing release preparation time by 35%.
- Scripted Bash jobs for file transfers, permissions, and cron-driven batch processing.
- Built AWS Glue ETL jobs with Crawlers and Data Catalog to load regulatory data from S3 into downstream databases.
- Deployed Docker containers on Ubuntu hosts and monitored health with Prometheus and Grafana.

EDUCATION

Adesh Institute of Technology, India | August 2016

Bachelor of Technology, Computer Science and Engineering - GPA: 7.5

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate (In Progress)
- HashiCorp Certified: Terraform Associate (In Progress)
